Matt,

Both Jim Hanchett and Sharon Salem will be here on May 21, 22, 28 & 29. I should be here May 20, 21 & 22. Any of us can give you the key.

Jim 413-545-2607

Sharon 413-545-5991

Subject: Mosquito Trapping 2008

Hello Cam,

For the 2008 mosquito season we will not be hiring a staff person for our Western MA collections. However, I will still be trapping in the area. If possible I would like to keep most of our equipment and the fridge in its current location. We may hire someone for next year and your location has thus far worked out well. It would also be beneficial if I could get a key to that lab so I could access it when I came out there most likely on alternating Saturdays.

Either next week or the week after I would like to come out to remove some equipment and condense the rest so as to not be in your way. What times work best for you?

Thanks as always,
Matt
